Mr. Laurent Petrynka, the president of the ISF

At ISF, we have always had a strong involvement in organizing Volleyball World School Championships, with 24 championships for the U18 category occurring since its establishment back in 1972. In 2019 we are honored to hold this event for the first time for the U15 category, in Poreč, Croatia from the 30th March until the 6th April.

It is fantastic to see this already established sport within ISF transition to a different format so successfully, with 13 countries attending this year, bringing a total of 23 teams; 15 of girls and 8 of boys, together to compete at the U15 age group.

Poreč, Croatia has already been involved in the great success of the U18 event, with the Croatian School Sport Federation (CSSF) hosting back in 2006. This will bring a familiar level of organization and professionalism to this inaugural U15 event.

This event will mark the beginning of a long and bright future within ISF for U15 Volleyball. I wish all the delegations the best of luck!

Laurent Petrynka
ISF President

**CROATIAN
SCHOOL
SPORT
FEDERATION**

Mr. Nikola Perković, the president of Croatian School Sports Federation

Dear students, guests and friends of school sport welcome to Croatia, to the beautiful city of Poreč where the first and thereby historical World School Championship for students under 15 will gather about 400 people from 14 countries from across the world.

We are honored to welcome you to our beautiful country. The role of school sport is becoming more and more important in Croatia as well as anywhere in the world. Nowadays, the only alternative to the sedentary life students and youngsters lead and diseases caused by it is SCHOOL SPORT.

Organizing this historical World Championship is our contribution to the development and promotion of school sport among students in Croatia and around the world.

We are very pleased that we were given the task of organizing the very first World School Championship under 15. Special thanks to the president, Mr Laurent Petrynka and ISF secretary general Hrvoje Čustonja for trusting us with this task, which is the indicator of ISF's trust in our Federation. We are certain we will once again justify your trust.

Our Central State Office for Sport offered their full support in realizing all our school sport activities. This year, the role of school sport was finally given the proper attention and we hope that we will contribute to the further development in school sport together on both national and international level.

At last, I wish all of you a pleasant stay in Poreč, which is one of the most beautiful cities in Croatia. I hope you will spend many pleasant and memorable moments here, as well as make many new friendships. I also want to thank the mayor, Mr. Perušić. World School Volleyball Championship is a unique experience for all its participants. On the behalf of the entire organizing committee I promise we will give it our best to make sure you have unforgettable time here in Croatia.

Once again, I wish you all a pleasant stay in Croatia. We are school sport.

Nikola Perković
CSSF President

IPL JOURNALISTS

Since 2013 Croatian School Sports Federation (HŠSS) is successfully implementing project *Play, Write, Like* (Igram, pišem, lajkam – IPL) for journalists. Student journalists participating in this project report on lower levels of school sport competitions. Their reports are posted on Croatian School Sports Federation official website. Students who write the most popular reports are given the opportunity to report on the finals of the national

championship, where they also compete against each other for a prize of the HŠSS. From the beginning of this project 322 IPL journalists have participated, writing over 390 reports on 621 competitions so far. The main goal of this project is promoting school sport, school sport competitions and increasing the number of students in school sport, as well as educating them in journalism through sport.

IPL Journalists: Marita Čatić i Petra Ivančić

VOLUNTEERING + SCHOOL SPORT = A+

In 2017 Croatian School Sports Federation (HŠSS) has participated in ERASMUS+ project *Volunteering in School Sport*. 24 students, 6 coaches from 6 European countries (Hungary, France, Turkey, Latvia, Malta and Croatia) were a part of it. The main goal of the project is to include young students (15-17) in school sport. Because of the positive experience the project provided, Croatian School Sports Federation created a project *Volunteering + School Sport = A+* with the intention of including high school students in school sport

activities as volunteers. HŠSS raises the bar in positive uprising of children and young people, providing them with the opportunity to be an active member of the community, which is the idea behind the concept of lifelong learning.

The main goal is to highlight the importance of student volunteering, inclusion of students (who are not athletes) in sport, developing leadership and organisational skills, as well as educating through sport. The most important thing is that they try to make it fun and positive.

Our volunteers are trained during national championships, where we try to strengthen the understanding of the relationship between volunteering and socio-emotional development of children and young people in specific age. The emphasis is on acquiring new skills, importance of communication and creativity in making life more active, thereby raising its quality. Developing additional skills and knowledge about volunteering will make children feel more confident. Exchanging experiences between peers will combine multidisciplinary knowledge and skills (school sport, volunteering and education).

'I am more than happy to be a part of this project because it brings together school sport, young people, ambitious people and of course, volunteering. I am grateful for this opportunity because here I can learn a lot by having fun and I can meet people from around the world' – Anamarija Radošević

IPL Journalist: Petra Ivančić

PILOT PROJECT – MEDICS IN SCHOOL SPORTS

Within ISF's World School Championship Volleyball U15, Croatian School Sports Federation connects students of nursing schools and school sports. The main goal of this pilot project is to develop a higher level of the medical education through health education and educational workshops that will hopefully contribute to the further development of the school sport system. This project will help promote school sport among students who are not athletes, which is one of the goals of the Croatian School Sports Federation.

First day of the competition was successful in making sports available to anyone. One of the competitors had difficulty breathing and she was provided medical assistance. The competitor has asthma, but she forgot her inhaler in her room. This event only proves that chronic diseases and other medical conditions (like asthma) are not an obstacle in doing sports, however they require a different, more attentive approach. Taking your medications on time and as prescribed, as well as making sure you can get them easily is very important for people with serious medical conditions. It is especially important for their safety on sports courts during greater physical activity. That is why today's intervention is a perfect example that sport is available to anyone, but with proper and responsible behaviour.

IPL Journalists: Marita Čatić i Petra Ivančić
