TITLE OF THE CERTIFICATE (original language: ES)

*Técnico Deportivo Superior en Esquí de Montaña
LOGSE*

TRANSLATED TITLE OF THE CERTIFICATE (English)

*Senior Sports Instructor in Ski Mountaineering
the General Organisation of the Educational System Law*

PROFILE OF SKILLS AND COMPETENCES

The holder has acquired general skills relating to:

Planning and directing the training of ski mountaineering athletes and teams, directing their participation in mid- to high-level competitions, and managing a mountain sports and climbing school.

Within this framework, each **SPORT TEACHING MODULE** includes the following **LEARNING RESULTS** that the holder acquires.

“Biomechanics of sport”.

The holder is proficient in:

- Applying the fundamentals of biomechanical analysis to the study of technique in high-performance athletes.
- Interpreting the results of biomechanical analysis in order to monitor the training of high-level athletes.

“High performance sports training”.

The holder is proficient in:

- Applying planning and control methods to train conditional physical and perceptual-motor attributes in high-level athletes.
- Knowing the phenomena of fatigue and over-training and applying the necessary controls to avoid the effects of these phenomena in high-level athletes.

“Physiology of effort”.

The holder is proficient in:

- Knowing the fundamentals of the assessment of functional capacity with a view to high performance.
- Interpreting the results of functional capacity assessment.
- Interpreting the results of the nutritional assessment of athletes.
- Collaborating with specialists in deciding on an athlete’s diet.
- Collaborating with specialists in prescribing ergogenic aids.
- Leveraging the physiological advantages of high-altitude training.
- Familiarising him- or herself with the apparatuses of a physiology-of-effort laboratory.

“Sports management”.

The holder is proficient in:

- Recognising the regulations that are applicable to professional athletes.
- Employing management and organisational techniques in the field of sport.
- Knowing the regulations that govern High-level Sport, at State and Autonomous Community level.
- Knowing the regulations that govern the control of doping.
- Knowing the regulations in relation to sports sponsorship.
- Knowing the measures designed to prevent violence in sport.

“Psychology of high performance sports training”.

The holder is proficient in:

- Identifying the psychological needs of athletes competing in top competitions.
- Applying psychological strategies to optimise athletes’ performance.
- Acquiring the necessary psychological knowledge and skills to direct other coaches and to work with sports science specialists.
- Identifying the specific competences of the sport psychologist, differentiating them from the psychological role of the coach.

“Sociology of high-performance sport”.

The holder is proficient in:

- Identifying problems inherent in the practice of high-level sport.
- Knowing the problems of adaptation that athletes face when their sporting life comes to an end.
- Knowing the social significance of high-performance sport and sport as a spectacle and its impact on athletes competing in top competitions.
- Knowing the methods of social research applied to sport.
- Employing techniques to identify trends in society related to the practice of sports.

“Professional development of Senior Sports Instructors in Ski Mountaineering”

The holder is proficient in:

- Specifying the competencies, functions, tasks and responsibilities of a Senior Sports Instructor in Ski Mountaineering.
- Identifying the civil and criminal liabilities that derive from the exercise of their profession.
- Knowing Spanish and international doping regulations governing mountain sports and climbing, with special reference to ski mountaineering competitions.
- Knowing the system used to organise ski mountaineering events and activities.
- Organising and promoting activities related to mountain sports.
- Preparing and implementing projects involving activities related to mountain sports.
- Knowing the system used to organise regional and national ski mountaineering competitions.
- Specifying the degree of development of the professions of mountain sports and climbing instructors in countries outside the European Union and determining the professional equivalence of Spanish instructors to professionals in those countries.

“Ski mountaineering training II.”

The holder is proficient in:

- Applying periodisation models to ski mountaineering training with a view to high-level performance.
- Applying the means and methods used to develop the psychological qualities that are required for ski mountaineering competitions.
- Delving deeply into the knowledge of the nutritional requirements that apply to high-level ski mountaineering.
- Applying physical recovery methods to high-level ski mountaineering skiers.

“Optimisation of ski mountaineering techniques”.

The holder is proficient in:

- Skiing in snowy conditions on ski mountaineering routes with a high degree of difficulty.
- Explaining and demonstrating high-level ski mountaineering techniques.
- Applying biomechanical ski mountaineering studies to perfect technique.
- Delving deeply into the knowledge of technical ski mountaineering equipment.
- Selecting suitable areas in which to practise high-level ski mountaineering.
- Leveraging the rules of ski mountaineering competitions to optimise tactics.

“Complementary block”.

The holder is proficient in:

- Employing multimedia to teach or train the sporting speciality.

“Final project”.

- The purpose of the final project is to ensure that the student has assimilated and is able to integrate, synthesize and apply the theoretical and practical knowledge he or she has acquired during the training process and is as a result able to embark on a professional career as a Senior Sports Instructor in Ski Mountaineering.

“Practical training”.

- The aim of the practical training block of the Senior Sports Instructor in Ski Mountaineering course is for pupils to develop in a practical way the skills they have acquired during the training period, applying in real-life situations the knowledge and skills they have acquired in theoretical and practical training, and to obtain the experience they need to effectively:
 - Programme and direct the training of athletes and teams and their participation in mid- and high-level ski mountaineering competitions
 - Manage a mountain sports and climbing department, section or school.
